

WHITE PAPER

# INTRODUCTION

TwinZ NFT is committed to building a community that grows stronger through the network of the project's owners. TwinZ are a unique club with a tight bond. TwinZ have been known to have special powers. They speak a language only understood between each other. Our community will build a brand that has value. Being a TwinZ is Double Fun and Double Rewarding because Twinning is Winning.

Holders of the TwinZ NFT can earn rewards by participating in the Gamification built into the NFT. Future rewards will be given to TwinZ NFT stakers through a "TwinZ" token to be airdropped after all 10,000 NFTs have sold out. The TwinZ token can be used for in game purchases, merchandise, and experiences through the Futago Marketplace. TwinZ share a lot in common. By joining the TwinZ community we share together through generous rewards and prizes.

With TwinZ you will be part of a special community. Your TwinZ are a special Avatar to the TwinZverse which is our private community in the Metaverse. TwinZ will own land in the Metaverse with a private club for NFT holders. The club will be a gathering place to have fun, share ideas and support the growing community. Special IRL and Metaverse events will be held focused on each community represented by the NFT diversity of all disciplines from arts, film, finance, music, sciences, sports and much more.

# THE PROJECT

TwinZ is a collection of 10,000 digital individuals living as NFTs stored as an ERC-721 on the Ethereum blockchain. Metadata and images will be hosted on IPFS. The TwinZ collection is algorithmically generated through a custom complex scalable code. Depending on the family a hash code is generated and stored with TwinZ NFT identifying identical and fraternal twins. 1,500 sets of Identical TwinZ will be generated with identical traits. 3,500 sets of Fraternal TwinZ will be generated with varying identical traits with some values and characteristics to be hidden and only revealed later. While many Fraternal Twins may appear to share common traits, the only way to truly identify the family they belong to is by their birth certificate which reveals a special trait that bonds them. 500 sets of Exclusive TwinZ will be generated that may be Triplets, Quadruplets, Quintuplets, Sextuplets, Septuplets, Octuplets and the rarest of them all will be Conjoined TwinZ. While Exclusive TwinZ may be identical they are more common to be a combination of Identical and Fraternal or all Fraternal making them more unique and extremely difficult to identify.

TwinZ will launch through a Founders Pass sold to founding members to be known as the OT "Original TwinZ." The OT will be an exclusive membership the remains with the NFT Holder of the Founder Pass. Exclusive member benefits will include VIP Experiences at IRL and Metaverse Events, specialty merchandise, and additional airdrop of the TwinZ token when released. All OT's will be given first rights to Mint 5 NFTs guaranteeing them 1 from each TwinZ Society providing the ultimate opportunity for staking for rewards.

# UTILITIES

Anyone owning a TwinZ NFT will be part of our unique club and invited to participate in exclusive community IRL and Metaverse events. All TwinZ are eligible for randomly selected airdrops of prizes and rewards. The Staking mechanism on the website will generate additional rewards including a TwinZ Token to be released. The Futago (TwinZ) Marketplace will provide value to the community to spend their TwinZ Tokens.

**Original TwinZ Mint Pass Holders** – As a founding member of TwinZ you are eligible for monthly airdrops of “Royalty Rewards.” OTs will have exclusive access on social platforms, Metaverse club and IRL events. OTs will receive 5% of monthly rewards that are split among all OT holders.

**Identical TwinZ** – Anyone owning a set of matching Identical Twins that are staked on TwinZNFT.com will automatically receive a special prize and be eligible for monthly airdrops. Identical TwinZ stakers will receive 5% of monthly rewards that are split among all Identical TwinZ stakers.

**Fraternal TwinZ** – Anyone owning a set of Fraternal Twins that have been confirmed and staked on TwinZNFT.com will automatically receive a special prize and be eligible for monthly airdrops. Fraternal TwinZ stakers will receive 10% of monthly rewards that are split among all Fraternal TwinZ stakers. Fraternal TwinZ are harder to match resulting in lower stakers.

**Exclusive TwinZ** – Anyone owning a set of Exclusive Twins that are staked on TwinZNFT.com will be eligible for monthly airdrops. Exclusive TwinZ stakers will receive 15% of monthly rewards that are split among all Exclusive TwinZ stakers and multiplied by the number of TwinZ staked. With only 500 Sets of Exclusive TwinZ and the extreme difficulty of matching them the number of actual stakers may be low.

**All Rewards can be tracked through the TwinZ website and discord.**

# STAKING

Once all 10,000 PFPs have been minted a new Staking feature will be added to our website. The Staking feature will allow owners to earn additional rewards for their Diamond Hands commitment to the TwinZ community. Any TwinZ owner can stake their NFT. Owners that have matched TwinZ will earn more rewards. Rewards for Staked TwinZ can be tracked through our website and Discord when Staking goes Live. You maintain ownership of your NFT even while staked and you can Un-Stake your NFT at any time. Rewards are airdropped monthly to your wallet if your NFT is Staked the entire month. Staking will benefit the TwinZ community by supporting the floor price when reducing the amount of NFTs available for purchase, theoretically increasing value of demand by reducing the supply.

More importantly TwinZ wants to build a long-term community of HODLers which strengthen the bonds of individuals who participate. The stronger the community, the longer the commitment, the better Utility value is achieved.

# COLLECTING

Owning a TwinZ NFT is a great opportunity to join a unique community of diverse and yet similar people. The best part is the fun participating in TwinZ gamification. TwinZ have different levels of rarity based on their traits and attributes. Collecting unique and rare TwinZ will provide value to the owner. Owners willing to match sets of TwinZ have an opportunity for additional rewards. TwinZ owners must decide to sell their NFT, HODL or collect sets of TwinZ NFTs and stake them. Combine strategy with game theory to maximize your experience. The real game begins as our TwinZ community interacts, builds bonds, and grows value.

# GAMING

Our diverse community across 5 Different Societies creates multiple opportunities for contest and games. The CreatorZ Society will offer contest for art and manga. EntertainerZ Society will offer musical and performance contest. GeniuZ Society will provide trivia, puzzles, and other contest. High RollerZ Society will sponsor Casino Nights and Sports Nights. The WarriorZ offer a unique opportunity for IRL and Metaverse contest to test your endurance, power, and strength. The TwinZ team is already developing an immersive gaming platform in the Metaverse that features both PvP battles and PvE missions. TwinZ will offer a range of earning mechanisms for P2E gaming. The diverse TwinZ societies will battle for ultimate supremacy or build strategic alignments for survival.

# METaverse

The Metaverse blurs the lines between IRL and Metaverse. By creating a TwinZverse within the Metaverse our community can flourish without boundaries. The Metaverse is an evolving and rapidly changing space with new platform developments every week. Our community can decide together where TwinZ belongs and what Metaverse platforms we want to participate it. Funds from the Treasury will be dedicated to purchasing land and building out the TwinZverse. Special events will be held in the TwinZverse to enrich our community. Most importantly it will be a great place to gather and have fun.

# MARKETPLACE

The TwinZ team is creating the Futago Marketplace. Our focus is to reward the community and a great way to do that is giving access to a marketplace to spend the TwinZ Tokens you earn. As we Collab with other projects we will list Whitelist Opportunities and Giveaways in the Futago Marketplace. When we hold IRL and Metaverse Events we will provide special access passes through the Marketplace. Exclusive TwinZ merch drops will be sold only through the Marketplace. Special accessories, tools, and functions to enhance your TwinZ will be released in the Marketplace. When the TwinZ Gaming Platform is launched we will offer in-game items and assets for improved playability and experience.

## RARITIES

TwinZ is comprised of 5 different societies with completely different visual atmospheres and experiences. Each Society is comprised of Identical TwinZ, Fraternal TwinZ and even more rare Exclusive TwinZ. Each TwinZ is a reflection of their society with 10 different traits and over 100 unique features to each PFP. The societies are:

**High RollerZ** – The wealthiest and most powerful

**CreatorZ** – The most creative artist, designers, and developers

**WarriorZ** – The strongest athletes and warriors

**EntertainerZ** – The most famous actors, comedians, dancers, directors, and singers

**GeniuZ** – The smartest minds in chemistry, economics, medicine, and physics

## COMMITMENT TO COMMUNITY

The founders of TwinZ understand the importance of transparency to earn the trust of the community. Web3 and the NFT Space is moving rapidly. Actions and results are tracked instantly, analyzed in detail and available to anyone generating short term expectations. For the NFT community to develop and mature, it is important for projects to have a long-term commitment and vision. The founders of TwinZ are comprised of seasoned veterans in business with experience in building companies for long term growth. The TwinZ team has spent months building the business plan and putting the people and processes in place to support the roadmap moving forward. We support that commitment, through the smart contract, by sending 40% of the mint and royalties to the treasury wallet to support the roadmap, rewards, and community.

The TwinZverse is one of the most dynamic, unique, and loyal families you could ever imagine. Come join our family and enjoy with us because Twinning is Winning!

# ROADMAP

An Extensive Roadmap was created to ensure a detailed buildout supporting the community and increasing value for the NFT. As the community grows, we want to provide an outlet for diverse opportunities through social, artistic and entertainment channels.

- **Phase 1 – 3Q 2022:** Develop community on Discord and Twitter. Website/Discord Launch Party for TwinZNFT.com. Whitepaper and Roadmap released on Website and through Discord. Mint Details with price and dates announced. Schedule drop on nftcalendar.io and other announcement platforms. Whitelist Challenges provided to community members. Community contest and games for exclusive prizes. Release of OT Mint Pass Sales
- **Phase 2 – 3Q 2022:** Release of Whitelist Pre-Sale. Website Minting open to General Public. TwinZ will be released and minted within their Society. Each Society will have a release apart to give more people a chance to mint and to support the floor price. Establish Listings on OpenSea and LooksRare. Merchandise Drops. Once 100% of TwinZ have been minted Birth Certificates will be released for each NFT identifying the family it belongs to. Information and hints will be slowly released on our Website and Discord. Staking Pool for TwinZ Holders are open for prizes and rewards.
- **Phase 3 – 4Q 2022:** Grow and Reward the Community. Airdrop of TwinZ Token. Creation of FutagoMarketplace for community members to spend the TwinZ token such as NFT Collaboration Giveaways, Whitelist Collaboration Opportunities, Merchandise, TwinZ 3D Avatars for Metaverse, along with weapons, tools, and accessories for future gaming. Continued Marketing through listing on RarityTools, Rarity Sniper, NFT-Stats, The NFT Score and other platforms. Get verified on OpenSea and LooksRare. Discord will be further developed to include the society families each TwinZ NFT belongs to. Challenges and games between the society families will be released for prizes.
- **Phase 4 – 1Q 2023:** Your TwinZ NFT will be a working Avatar in the metaverse and will grant you free access into our TwinZ Club. Exclusive 3D Avatars of your TwinZ NFT will be developed and offered to the holder. TwinZ Club will be a private club where you can share ideas and gain insight to future developments. Honorary Guest will receive special invites for exclusive events. TwinZ will be a launchpad to future NFT projects and artist with our members receiving early access prior to launch. Custom Clothes and Accessories will be offered to enhance your Metaverse Experience.

- **Phase 5 – 2Q 2023:** Exclusive Events and Parties to build Community through diversity as art and culture fuse to create magic. The lines between the physical and digital worlds are blurring and the rules are being re-written. Contribute to the Manga as storylines are developed through comics and video.
- **Phase 6 – 3Q 2023:** Launch an immersive gaming platform in the Metaverse that features both PvP battles and PvE missions. TwinZ will offer a range of earning mechanisms and rewards including staking, trading, and P2E. The diverse TwinZ societies will battle for ultimate supremacy or build strategic alignments for survival.
